Five Powertrain Plants share the Same Eight Ship To Locations

Do you know that Harley-Davidson's (H-D) Powertrain business has five manufacturing plants/schedule issuer codes? Do you know that all five plants can ship to any one of the eight Powertrain ship to locations? This Electronic Commerce (EC) Tip will share with you each plant's schedule issuer code and all the ship to location codes that the plant may have material shipped to.

In 2005, H-D implemented plant/schedule issuer codes for each of its five manufacturing business entities, added new ship to locations, and made it possible for **any plant to ship to any ship to location**. Listed below are the Powertrain schedule issuer and ship to codes.

Please review the information below and ensure that your company's ASN process will enter the schedule issuer and ship to location codes sent in the material requirements document (EDI 830 or 862) in the ASN. **If the ASN codes do not match to the codes sent in the material requirement, the ASN will be rejected.**

For additional information on this tip or any H-D EDI/Bar Coding business requirement contact the Harley-Davidson EDI Department at HD-EDIAdmin@harley-davidson.com.

Plant / Schedule Issuer Codes

<u>Plant</u>	<u>Code</u>
Capitol Drive (CXL)	4145353780
Capitol Drive (CTR)	414535490
Capitol Drive Powder Coat (CPC)	414535363
Capitol Drive, Remanufacturing (CFL)	414535352
Pilgrim Road (PR)	4145028600

Ship To Location Codes

<u>Location</u>	<u>Code</u>
Capitol Drive	414535001
Capitol Drive, CTR, Dock 5	414535490
Capitol Drive, CXL, Dock 3	4145353780
Capitol Drive, Gen Parts, Dock 4	414535002
Capitol Drive, Powder Coat, Dock 2	414535363
Capitol Drive, Remanufacturing, Dock 1	414535352
Pilgrim Road	414502001
Pilgrim Road, Powder Coat	4145028600
