Standard Carrier Alpha Codes ..... 2

Document Update..... 5

## Introduction

H-D communicates to the supplier via the purchase order, ship schedule/picklist, or verbally which freight carrier to use for shipping the ordered material. The code that represents the freight carrier, also known as the Standard Carrier Alpha Code (SCAC), must be documented in the ASN in UPPER CASE letters. Attached is a list of commonly used freight carriers and their carrier code.

Suppliers supporting the **Supplier Direct** and **Parts & Accessories** businesses may find non-standardized carrier codes in the ship schedule/picklist or purchase order, which may not be listed in the attachment. The non-standardized carrier codes provide Harley-Davidson detailed information regarding the inbound shipment. For assistance in determining the non-standardized carrier code or interpreting which freight carrier it represents, please contact the following individuals:

- **Supplier Direct** suppliers should contact their purchasing representative
- **Parts & Accessories** suppliers should contact their purchasing representative, which is documented on the purchase order

For additional information regarding H-D's shipping requirements, please reference the H-DSN Transportation Routing Guide web page, accessed via Menu  General Business Information  Transportation Routing Guide. You may also direct your questions to the HD/UPS control tower at [upsharleycontroltower@ups.com](mailto:upsharleycontroltower@ups.com) or to a specific transportation contact listed in the routing guides which are posted on the H-DSN Transportation Routing Guide web page.

## Standard Carrier Alpha Codes

Carrier	SCAC	SCAC or NON-SCAC
A. Duie Pyle Inc.	PYLE	SCAC
AAA Cooper Transportation	AACT	SCAC
Airborne	AXPR	SCAC
